New Goods! New Goods!—Mrs. H. Skelton has just received something nice in the way of Hats and Bonnets. Call and see.

EDITORIAL BRIEVITIES.

They pay one dollar per head, in Cincinnati, for all dogs found running at large without being muzzled. If it was paid here what a fortune would be in store for some enterprising genius.

Whether the weather permits the farmers to sow their oats or not, it doesn't prevent wild oats from being sown daily on our streets.

We had a grand display of the Northern Lights last Thursday night. They were visible throughout the entire East, West and South, and are pronounced the finest seen since the grand and imposing exhibition of August, 1859. They commenced about 8 o'clock and lasted until late in the night.

The steamer Jonas Powell, finding too much competition in the Big Sandy and Portsmouth trade, has left it and now runs between Portsmouth and Marysville.

Judge Johnson, of Ironton, and Col. L. T. Moore, of Catlettsburg, were in town last week, in attendance upon the District Court.

Hydrophobia is very common in all our large cities. We have too many dogs. One human life is of more value than all the dogs in the world. And, as dogs will go mad, and when mad bite people, producing thereby the most horrid and painful death known to humanity, it is the duty of those in authority to legislate in behalf of the citizens and against dogs.

The Grand Encampment of the I. O. O. F. meets in Cincinnati on the first Tuesday of May. They will have a river excursion, banquet and other entertainments.

A correspondent of the Jackson Standard, who had lost the money he had remitted for his paper, speaks of the mail route between Gallia Furnace and Jackson as follows: "I do not see any use in sending any more money through this mail line, for I would not trust to send a chaw of tobacco through the hands of some of the Postmasters between here and there." Our officials had better be overhauling this route.

Messrs. NEWTON & CO., the butchers, furnish the Ohio No. 4 from five to six hundred pounds of meat a week. Butchers will thus patronize the business interests of our city, should in return be patronized by all who wish well to our prosperity.

Happening in at the meat shop of Messrs. NEWTON & CO., a few days since, we found them engaged in filling an order for meat from Kanawha! That is sending a long way for marketing.

Our new packet Ohio No. 4 came in late Friday night in consequence of press of business. Besides a heavy freight, she registered 171 cabin passengers before arriving at our wharf. Her working is very satisfactory.

There were 28 funerals in this city last week, says the Pomeroy Telegraph—all the subjects being children. Nearly all the deaths were caused by measles.

Whether business be dull or brisk, one thing is sure—the wholesale house of Messrs. HALLIDAY & MILES are selling large quantities of goods, as is evidenced by the fact that the senior member of the firm went East, a few days since, for their second supply.

The Parkersburg packet Emma Graham, on her trip up Monday morning, in landing for passengers a short distance above the city, run on a log and broke some seventeen of her timbers. She went on to Middleport for repairs.

Marian Crofoot and John Moon, burglars, Joseph McKasky, forger, and Elijah Carl, the butcher of a neighbor's heifer, were taken to the Penitentiary from Meigs county, last week.

The "Spring Fever" is attacking the young men of our city. Street corners and steps are used as hospitals for the poor fellows.

The time for buggy and carriage riding is near at hand. If you have no buggy or carriage go to VANDEN & SONS, and get one—they put up the best that turn a wheel.

The four horse team of R. ALESHIRE & CO., pulled up the wharf, a few days since, twenty-eight barrels of wheat, equal to near 7,000 pounds, or three and a half tons.

PHILIP GRAHAM, son of Mr. JOHN GRAHAM, of Green township, died last Thursday, of consumption. His age was about 20.

We note that Messrs. BAILEY & RIDEHOFF are realizing a very handsome response to their pains taking effort, to secure the best and cheapest stock of Boots, Shoes, etc., put up for sale in the city of Gallipolis. Their trade is heavy and increasing. So note it be.

The total indebtedness of the city of Gallipolis, at the present time, is about \$40,000. There was paid the past year, on orders and bonds, the sum of \$18,821.59. At that rate it won't take a long time to pay all we owe.

At the recent township election, the Republicans of Springfield elected their entire ticket, with the exception of one Trustee, by an average majority of about 12. Last year it was democratic. We like the Union men of this township—they are ever wide awake, and true to their colors.

Hall's Vegetable Sicilian Hair Restorer is the best preparation for the hair in the market, and always gives satisfaction. Do not be put off by unprincipled dealers with others on which they make more profit.

Mayor DAMRON fined two young men \$5 each and costs, last Saturday, for discharging fire arms in the city, in violation of ordinance.

Geo. WILLIAMS was arraigned before Mayor DAMRON, on Monday, for an assault on an old man named SWEET. WILLIAMS was held to answer to the Court of Common Pleas in a bond of \$200.

The township Assessors were in consultation at Auditor Evans' office, last Thursday. We believe all are present. They received their blanks and instructions, and had an agreeable interchange of views in regard to the valuation of live stock, etc.—These yearly meetings are a great help to a uniform rate of valuation.

The Republicans of Morgan township did a noble work at the recent election. They elected two Trustees, the Clerk, and one Constable. Last October the township gave 28 democratic majority. We have a number of live, active Republicans in Morgan, and when they strip themselves for a square out contest, they are pretty certain to be successful.

The wharfage receipts for the year ending April 1st, were \$2,946.52.

Another attempt was made to enter the residence of E. DELSTON, Esq., last Wednesday night. It was unsuccessful, as Mr. D. was awake, and the robbers becoming aware of it left in a hurry. They had got window open, and were about to enter, when they found it discreet to decamp.

The splendid packet Ohio No. 4 came in Tuesday evening at half past seven, twenty-five hours out from Cincinnati, having made her usual number of landings. Thanks for papers in advance of the mail.

As usual, the Republicans of Harrison township were victorious at the recent election, electing their entire ticket. You never hear any bad news from this township—the Union men don't do things in that way.

The Fire Engine was out for trial last week, and performed admirably. All we want to make it a success at fire is water. In this respect our city is very deficient, we having no public cisterns.

Messrs. NORTHUP & SMITH have just received their second stock of spring and summer goods. Call and look at them—some nice patterns for gentlemen's wear.

We are glad to learn, after the severe weather of last week, that the prospect is good for an average fruit crop. Peach trees are now in bloom.

Heavy rain storm and high wind last Friday morning, between 2 and 3 o'clock. In many places fences and trees were leveled with the ground.

Next Monday, April 26th, is the semi-centennial anniversary of the introduction of the Order of Odd Fellowship in the United States. The day will be appropriately celebrated by the Brotherhood of Charleston, W. Va., and the order here propose attending. They will go up on the Mountain Boy Sunday night.

The Union Woolen Mills have been stopped for a week or more, undergoing repairs. They have been put in complete order for the summer business, and will be running again next week. They will do Carding, Spinning, Filling, coloring and finishing as usual.

One year ago No. 1 red wheat was worth \$2.45 per bushel—now \$1.45. The Cincinnati Times thinks the price will still decline, and that next August this product will be dull at \$1 in currency.

In our notice, last week, of the Furniture Factory, we stated that the establishment employed 22 hands, "a full complement" for the works. We were in error in the number being the full capacity of the factory. When working to its full capacity, it will give employment to nearly fifty workmen. It is more extensive than we supposed. We hope it will find a demand for all the work it can turn out, and thus add that many more families to the consumers of the city.

Mr. D. L. WOLKOFF, of Springfield township, returned from his western tour, in search of a location, last Thursday. He has not bought yet. He has our thanks for late papers.

The city authorities have purchased, for pound purposes, the lot on 4th street, opposite the gate to the Cemetery, known as city lot No. 381. If people miss their cows and hogs, they will undoubtedly find them there.

Ladies are invited to examine the Boots and Gaiters at Dages'.

It is reported to us that a young lady, about 18 years of age, and a daughter of Mr. JAMES DARNST, of Addison township, mysteriously disappeared from home, a few days since, and up to the present writing, (Tuesday) had not been heard from. No cause is known for her absence. Her parents and friends are, of course, anxious about her.

Clay township elected a Republican board at the recent election.—The cops. had no ticket, knowing it to be useless to put one in the field.

Call at BAILEY & RIDEHOFF and see their new stock. In ladies and gentlemen's wear they have sundry new styles.

The city Council held a session Tuesday evening. We note the most important business transacted. The Mayor was instructed to issue his proclamation for the enforcement of the dog Ordinance. These animals must be either kept at home or muzzled.

Frank Curry was awarded the contract for lighting the public lamps at \$1 per quarter for each lamp.

The committee, previously appointed for that purpose, reported that they had examined Mayor DAMRON's docket and found it all satisfactory, the fines collected all having been paid into the city Treasury.

Wm. Cronley, H. McCarg, J. E. Richardson, Samuel Cole, John DeLille and Henry Williams were appointed special policemen.

John A. Rodgers was appointed Supervisor in the 2d district, and Abraham Mulford in the 4th district.

If you need a complete fit-out of Furniture, Carpets, Oil Cloths, Curtains and Wall Papers, go to WILLY C. HAYWARD's, his stock is the largest and best selected in the city, and at less prices than any other House.

The popular packet Mountain Boy left Sunday night for Kanawha full of freight and near 200 passengers. Capt. NEWTON shows a commendable zeal in building up this trade—in making Gallipolis the port of disembarkation, of both freight and passengers, for the Kanawha—and we are glad to note that he is meeting with such success. It adds to the importance of our city, as well as being profitable to his boat.

His efforts in this direction are even interfering with the trade of the Cincinnati and Kanawha packets, as witness the following from the Cincinnati Times of last Friday: "The Annie Laura don't find the Kanawha trade very profitable; she has not made much in the time she has run there, and her up trips appear to be lighter every week. The Fleetwood is cutting into her trade considerably, as she takes Kanawha River freight at as low or lower rates, and is a fast and favorite boat. Success to all such efforts, and to the Gallipolis and Kanawha packet company."

The Home Insurance Co. of Columbus, Ohio.

This sterling Company, an Ohio Company, has gained a reputation for reliability and safety that it may well be proud of. By examination of the State Auditor's Report, it stands first on the list. Nine-tenths of all its policies have been issued to patrons in Ohio, which very justly shows its merit and trustworthiness in time of need. The income of the Company has now reached Three Hundred Dollars per day, and each month continues to add to its receipts. During the year 1868 its business added to its cash assets Forty Thousand Dollars.

The Directors of this Company, who are largely interested in its welfare, have a pride to see its Capital and Assets largely increased each year, and to attain that end, have for the present resolved to declare no dividends to Stockholders, but to devote the resources of the Company, to increase steadily its capital and afford doubly a guarantee to its policy holders. With this noble record of the Company, we bespeak a full line of patronage from our citizens.

Our worthy townsman, S. A. Scott, is Agent for this Company, who will give full information, and is authorized to transact the business of the Company. Also, James M. Irwin, Porter.

WILL C. HAYWARD has now on hand the genuine Yellow Nansmond seed Sweet Potatoes, by the peck, bushel or barrel.

Hurrah! What has come? Why, the large and splendid assortment of Boots, Shoes, Hats and Caps at BAILEY & RIDEHOFF's. The people rejoice, for their prices are low, and their stock superb.

Untraded in goodness and durability—The Boots, Shoes and Gaiters, to be found at the popular establishment of BAILEY & RIDEHOFF.

Sweden and Norway sent 18,000 emigrants to this country last year; and a much larger number is looked for this year.

Country Merchants are invited to examine the stock of Boots, Shoes, etc., at JOHN DAGES'. He has the best assortment at the lowest prices.

SAD CATASTROPHE AND SUICIDE.—On the up trip of the steamer Ohio No. 4, Friday last, when near Vanceburg, Ky., a lady, wife of Mr. McMAHAN, of Indiana, on her way to Millersport, without giving any warning, sprang overboard from the after guards of the cabin. Her husband was in the state room, and a niece was standing by her side, (the other passengers being at breakfast) but they were unable to prevent her, so sudden was the act. The boat was stopped and the yawl lowered almost instantly, but she was seen on the surface of the waves but a moment, and, before aid could reach her, sunk and rose no more. She was about 45 years of age, and in bad health. No cause is known for the act, other than aberration of mind from ill health, she having attempted self destruction once or twice previously. The bereaved husband, with his niece, stopped at Vanceburg, to seek for the body of the unfortunate woman. The sad occurrence cast a gloom over the usual gay company on the steamer that was felt for some time.

The officers of the boat rendered all the aid in their power, but the affair passed so quickly, it was of no avail.

We heard of a transaction, a few days since, which speaks well for not only the energy of our wholesale dealers, but for Gallipolis as a point for merchants to lay in their supplies. A number of merchants from the Kanawha region, who are also dealers in tobacco, went to Cincinnati and sold their tobacco, and then returned here and bought their Dry Goods, Groceries, Boots, Shoes, etc. They found they could do as well here as in Cincinnati. A town that has such live business men as our wholesale dealers are, must prosper, and we trust that they will prosper likewise.

In our notice of appointments by city Council, last week, an important error occurred. We got the Board of Health under the head of Fire Wardens. We re-publish the corrections:

Board of Health.—F. M. Holloway, A. C. J. J. Poole, C. R. McInturn and L. L. Kuhn.

Fire Wardens.—R. F. Stewart, Wm. Lawson, C. W. Cherrington, H. McClurg and James Meikle.

Portsmouth has sent to the authorities at Washington, a heavy petition, asking for a daily mail by river between that point and Gallipolis. The Ironton Register, in noticing the movement, says:—"It was regarded, and later developments have confirmed the opinion, as purely a commercial movement on the part of our neighbors, to have a daily packet line terminating at their wharf." The petition was presented to us, and our name asked to it, but regarding it in the light that the Register does, as simply a business operation on the part of our Portsmouth neighbors, we declined to aid in the matter. We see no necessity for a change—for extending the route below Ironton. It is a mere local route at the best—an important one to be sure—but its present schedule of distance, from Gallipolis to Ironton, is all that the public interest demands.

The Register further says:—"We have no idea that the petition will be favorably entertained by the authorities at Washington, and yet, it may be well for our people to add to the protests which have already been made against it."

Mr. JAMES McLAUGHLIN, Sexton of the Cemetery, furnishes us the following report of the deaths in the city for the three months ending April 1st, to-wit:

Whites	5
Colored	4
Total	9

This shows a very favorable health report for a city with 5,000 inhabitants.

A change has been made in Mail Agents on the Parkersburg route. The old officials have to give place to Capt. ROEDEL, of Pomeroy, a one-armed soldier, and to Capt. KENNEDY, of Ravenswood, W. Va., also a veteran of the war. We are sorry to lose our young friend, T. R. HAYWARD, from this route, as he had made an honest and efficient officer.

The steamer Nina Semmes struck a snag above Baton Rouge, in the Mississippi, on Saturday night last, and sunk in fifteen minutes. No lives lost. Boat and cargo total loss.

There is, probably, no one disease with which mankind are afflicted which is the source of so many ailments as Dyspepsia, and there is no more certain cure than Roback's Stomach Bitters.

DEAFNESS PARTIALLY CURED!

On the 7th Oct., 1868, a letter was written to me by Mrs. Mary F. of Brooklyn, New York, in the following words:

Sir—A Gentleman from your section, mentioned the circumstances of your infirmity. As an act of christian fellowship, I take the liberty of sending you a slip from a paper which may interest you; say sister reading in Montreal, in Canada, was cured by this medicine. It has created some little excitement in this place, and we are anxious that all who are afflicted should learn of the remedy.

Respectfully, MARY F.

Notice from Jacob F. Finner, Rector of St. George Chapel, Montreal. "I have been afflicted with deafness for some time, and have been unable to obtain relief, when a friend sent me a printed notice out of the Methodist Churchman, informing her of a Mrs. M. C. L. of Hoboken, New Jersey, who knew how to prepare the medicine. I wrote for the receipt and medicine, have obtained a supply, which has been freely used, and in five weeks the lady has been restored to her hearing. I called at Hoboken, to thank Mrs. M. C. L. for her kindness, and believe that nothing but a conscientious sense of duty has induced her to furnish the remedy."

Mrs. M. C. L. sent me a history of her case, which is in substance as follows: "At my twelfth year I became partially deaf. At eighteen I was married to a Major in the U. S. Army, who was attached to the Indian Bureau Department, and was stationed on the plains in the West Territory."

I accompanied him to the far West and in a frontier settlement, and here met the great "Medicine man" of the tribe—he, informed my husband, that the cure of deafness, hearing of his race is scarcely excelled by the forest deer, that it was no part of the Indian character to study books, but they study to get a full knowledge of the vegetable kingdom to enable them to select with judgment, herbs of magical power, and by this means they are further advanced in botanical medical science, than the most learned of the civilized world. My husband obtained the medicine and in two weeks my hearing was completely cured. My joy knew no bounds, with fresh charms, the song of birds seemed to be rejoicing at my restoration to hearing once more. From that hour I determined to be a humble instrument in the hand of providence—to spread the glad tidings of hope—Six years have already passed, and I can hear with surprising accuracy. After the death of my husband, I returned to the East to join my relatives, and now desire to spend the remainder of my life in this charity."

MARY C. L.

Since a notice was taken by the Gallipolis Journal, and Bulletin, of my partial restoration of the sense of hearing, I have been called upon, repeatedly, for some of the medicine. As my attention and physical debility must be an apology for not manufacturing for the wants of those wishing to obtain it, I have turned it over to Mrs. D. MACK, who will keep it on hand for export cost, but little above expense.
